Welcome

Lebanon is one of the finest small cities in all the Ozarks. Being a full-service community that has over 150 years of history, a storied connection to Route 66, a historic downtown, and a strong manufacturing base, Lebanon is a great community in which to live, work, and play. However, the assets and infrastructure that made Lebanon successful now are aging and require replacement and maintenance. Growing business needs and citizen expectations drive the creation of new facilities, services, and upgrades to existing offerings. Capital improvements are a key responsibility of the City and allow for the attraction and retention of businesses while providing for public safety, recreation, and enhanced citizen services.

The purpose of this five-year Capital Improvement Plan is to identify and provide a means to address growing public needs through a standardized, annual process that involves not only City staff but also elected officials and the public at large. The CIP serves as a critical layer of transparency for residents concerned with how their tax dollars are spent. As projects are identified, developed, and eventually incorporated into the City Budget, citizens and elected officials alike are able to observe and interact with this process, ensuring that projects are responsibly funded and properly executed.

City staff is constantly striving to improve this document and to increase the level of public participation in its creation. Along with the City Budget, the CIP is one of the primary tools for the City to articulate its needs and plans to Lebanon's residents. Staff is dedicated to developing a plan that focuses on the essentials of providing the very best services and infrastructure to our citizens, industries, and local businesses.

Introduction

Executive Summary

Local governments today face many challenges, but none more daunting than the management of increasing infrastructure and equipment needs in the face of declining or flat revenues. In order to be good stewards of the public's trust and tax dollars, well-managed cities look to the future and attempt to anticipate needs over a long period of time to ensure that tax dollars are spent in a prudent, but timely manner, so as to maximize their value. This annual long-term planning process becomes the city's Capital Improvement Plan (CIP). The FY 2026-2030 CIP is an overview of the needs for infrastructure, public safety, parks, public facilities, and other improvements which make significant contributions to the community's livability.

The CIP sets forth a systematic means to address the need to maintain, upgrade, and replace components of the City of Lebanon's infrastructure. This plan is the result of various processes and incorporates input from the public, elected officials, appointed boards, and various staff. As one of the primary City planning documents, the CIP serves as an inventory of recommended future projects (i.e. street maintenance and storm water control) and major purchases (i.e. vehicles and facilities) which the City uses to support its services and programs. The projects and acquisitions contained in this plan are not approved for execution or implementation; rather they represent an articulation of needs as seen by City staff. Prior to undertaking any project or purchase in the CIP, staff submits each project to the city council for inclusion in the City Budget. Any project appearing in the budget is then purchased according to the requirements of the City Purchasing Policy.

Introduction

The Capital Improvement Plan (CIP) is a guide encompassing the new and continuing capital improvement needs of the City. Outlined in the CIP is a schedule of capital improvement projects and financial resources for the plan's five-year horizon. The CIP sets forth proposed expenditures for systematically constructing, maintaining, upgrading, and replacing the physical infrastructure necessary for continuing operations and providing city services. Throughout the process of formulating the CIP, needs are evaluated, improvement projects and asset acquisition examined and prioritized, and costs estimated, allowing the City to look for ways to maximize leverage of funds through partnerships with local, state and federal agencies. The CIP is reviewed annually to maintain visibility and allow for the adjustments to be made in the plans due to changes in priority as well as shifts in the fiscal environment.

A CIP provides many benefits including:

- Allowing a systematic evaluation of all potential projects at the same time
- The ability to stabilize debt and consolidate projects to reduce borrowing costs
- Promoting a dialog with citizens both individual and corporate
- Serving as a public relations and economic development tool
- Creating opportunities for collaboration among other governmental units to realize cost savings for the taxpayers
- Aiding in grant funding opportunities
- A focus on preserving a governmental entity's infrastructure while ensuring the efficient use of public funds

Introduction

Types of Capital Improvements

- Major building additions and remodeling
- Electrical distribution lines
- Substation upgrade
- Park land and development
- Wastewater treatment plants
- Sewer mains
- Stormwater sewers
- Street construction projects
- Traffic signals
- Computer systems and network infrastructure
- Water mains
- Water towers and wells
- New building construction
- Land purchases
- Equipment purchases
- Vehicles, including fire trucks, police cars, utility vans, and more

Why the City of Lebanon is Developing a CIP

City staff has worked to develop this document in order to identify the needs of departments and divisions as well as the citizens. The CIP is developed to help guide the governing body's discussions of community needs and create an effective communication tool for project forecasting.

Additional reasons to create a CIP are:

- Facilitate coordination between capital needs and the operating budgets.
- Enhance the community's credit rating, control of its tax rate, and avoids sudden changes in its debt service requirements.
- Identify the most economical means of financing capital projects.
- Increasing opportunities for obtaining federal and state aid.
- Relating public facilities to other public and private development and redevelopment policies and plans.
- Focusing attention on community objectives and fiscal capacity.
- Keeping the public informed about future needs and projects.
- Coordinating activities among neighboring governmental units to reduce duplication.
- Encouraging careful project planning and design to avoid costly mistakes and help the community reach desired goals.

Introduction

City of Lebanon's Strategy for The Capital Improvement Program

In creating the CIP, the City must endeavor to balance its resources among previously committed projects, major reconstruction, maintenance needs, and new projects. The capital improvements program was formulated with various obligations in mind, including debt service requirements, federal and state mandates, and cooperative funding agreements. Funding decisions in the CIP are based on need as reflected in infrastructure condition assessments and growth patterns, with an additional effort made to complete projects begun in previous years.

Once previous obligations have been addressed, the remaining resources are divided among maintenance, rehabilitation and new construction. Maintenance projects undertaken through the CIP include the large annual projects necessary to ensure that existing infrastructure does not deteriorate and remains in a usable state. Rehabilitation projects are initiated in those cases when infrastructure has experienced measurable deterioration but is safer or more economical to rebuild. Finally, meeting the development or redevelopment needs of the community necessitate the addition of capital infrastructure to the City systems. The result of the staff's effort to balance these factors over the next five years is represented in this document. To determine additional needs the budget team will solicit, compile and evaluate project requests from each department through submittal of a request which include a statement of the need and justification for the project, its costs, and its net effect on the operating budget over the project's lifetime, and an implementation schedule. Annual updating of this plan involves repeating the above steps to reflect new information, policies and proposed projects. The affected departments review and revise the entire program as necessary to reflect the most recent determination of need for equipment, maintenance of equipment, and the town's social and environmental conditions. Where possible, capital improvement projects are those which have a long useful life, benefit the City as a whole, maintain or increase the citizen's quality of life and either protect or have no adverse impact on the environment.

Funding the Capital Improvement Program

This CIP contains nearly 211 capital projects totaling \$40,830,020 million dollars between FY 2026 and FY 2030. A variety of instruments are used to finance these projects. Capital projects and acquisitions featured in the Fiscal Year 2025 Budget do not appear in this CIP document as this is planning and forecasting tool rather than an operational or allocation device. Current fiscal year capital improvements are best discussed in the context of the budget rather than the intermediate and longer-term horizon of the CIP. The Capital Improvement sales tax generates approximately \$1.8m annually, funding a significant portion of non-utility capital requests. User fees and rates tend to be a significant source of funding for Lebanon's CIP as well. Over the next five (5) fiscal years enterprise revenues are proposed to provide sixty-five percent (65%) of the funds for the CIP. These funds are generated through such municipal enterprise activities as water, sewer, electric, and fiber operations.

The general fund, grants, partnerships with special taxing districts, and other funds round out the funding sources for the CIP.

Examples of funding sources include the following:

Business License Tax – In 1976, the City of Lebanon authorized the creation of a Special Business District for its downtown area. In addition to a special property tax levy, eligible businesses within the district pay a \$50 business license tax annually.

Capital Improvement Tax - The voters of Lebanon elected to impose a local sales tax to establish and cover multi-year expenditures of major capital projects and expenditures for all general government

Introduction

programs. Since the sales tax is tied to the spending habits of local consumers it is subject to the local economic conditions affecting local residents.

Community Development Block Grant (CDBG) — Funds received through the CDBG program are awarded to cities for projects meeting at least one of the following federally mandated criteria, of primarily benefiting those of low-to-moderate income. The program offers grants to communities to improve local facilities, address critical health and safety concerns, and develop a greater capacity for growth. Funds are offered for projects that can range from housing and street repairs to industrial loans and job training.

COP (Certificate of Participation) Bond - A type of financing where an investor purchases a share of the lease revenues of a program rather than the bond being secured by those revenues. The authority usually uses the proceeds to construct a facility that is leased to the municipality, releasing the municipality from restrictions on the amount of debt that they can incur.

Debt Financing -- Improvements to major streets, bridges, parks, and public facilities are primarily reliant on tax revenue to support payback of General Obligation (GO) bonds, Certificates of Participation (COPS) and Revenue bonds, while some projects are backed by other revenue sources. General Obligation bonds provide debt financing not only for property tax-funded projects but also for capital improvement projects where debt service payments are paid by City enterprises (such as Water, Electric, or Stormwater), and special assessments. The interest rates on issued debt and the cost for construction can change substantially due to economic variables and both have a major effect on the costs associated with the CIP projects.

Department of Natural Resources- The Missouri Department of Natural Resources offers numerous opportunities for financial assistance including tax credits and exemptions, loans and grants. These opportunities are available for private individuals, communities, organizations and companies. Assistance can range from help in rehabilitating a historic building or building an erosion-control structure, to building sewer and water systems and cleaning up leaking underground storage tanks.

Enterprise Revenues — these funds are derived from fees and charges for services provided by operations of the utilities and are used to fund daily operations and provide resources for debt service and pay-as-you-go capital improvements only to enterprise facilities. Budget and accounting units are created for particular purposes, such as water and sewer or other self-sustaining operations, to separate the revenue and financial control of such operations from the General Fund.

Missouri Department of Transportation Enhancement Program— these are matching grants offered by the State Highway Commission to create multi-modal transportation opportunities in selected communities.

Missouri State Gasoline Sales Tax – The State of Missouri approved an additional gasoline sales tax of which a portion is returned to the City.

Motor Vehicle Sales Tax - The City receives funds through a Motor Vehicle Sales Tax and uses it to fund street maintenance activities. These funds are distributed to the City by the Missouri Department of Revenue. Fifty percent of the proceeds from the 3 percent State Motor Vehicle Sales Tax revenues is dedicated to highway and transportation use and is apportioned between cities, counties, and state as follows: ten percent (10%) to counties, fifteen percent (15%) to cities with allocation based on population from the last federal decennial census, two percent (2%) to the state transportation fund, and seventy-three percent (73%) to the state road fund.

Motor Vehicle Tax- In addition to Motor Vehicle Sales Tax the City and County receives a distribution from increases in the state motor vehicle fees. The Motor Vehicle Fee Increase is state license fees and taxes on motor vehicles that have been increased by law since 1979. The amount distributed is

Introduction

similar to the Motor Vehicle Sales Tax. These revenue sources are somewhat volatile with new and used car sales activity.

Park Tax – A portion of the local property tax is earmarked for the maintenance and enhancement of the City's park system.

Property Tax Collections - The valuation affects City's capacity to fund projects, and it is important that the City realizes reasonable valuation growth in the future. The weakened housing market, coupled with other local economic factors, has resulted in flat assessed valuation. Funds impacted by this are the General and Park funds.

Surface Transportation Program— Statewide Transportation Improvement Program (STIP) prepared annually, sets forth the specific construction projects the Missouri Department of Transportation MODOT will undertake in the next five years. It covers highways and bridges, transit, aviation, rail, waterways, enhancements and other projects.

Transportation Improvement Sales Tax – The voters of Lebanon elected to impose a local, one half of one percent, sales tax for the purpose of carrying out the renovation, reconstruction and maintenance of existing city streets. As this revenue stream is tied to the local sales prevailing economic factors impacting local residents can affect collections. By state law monies collected by such a tax shall be appropriated and disbursed only for transportation purposes. This tax was approved for a ten (10) year renewal in November 2017 and will sunset January 01, 2029.

Budget Terms Defined

Budget: An estimate of revenues and expenditures anticipated during a fiscal year and a summary of anticipate use of those revenues and expenditures.

Capital Assets: An asset with an anticipated life greater than one year and a minimum cost of one-thousand dollars (\$5,000).

Capital Budget: The City's systematic plan for addressing new construction, major maintenance greater than one-thousand dollars (\$5,000) in a given fiscal year. Additional expenses can include the purchase and improvement of land and the acquisition of new buildings and facilities, or acquisition of longer lived, yet depreciable assets.

Capital Improvements Project: A project that may include the construction of new facilities, renovation of existing structures or facilities to extend useful life, and major repair of infrastructure such as streets or utility lines that is of a comprehensive and non-routine nature.

Capital Improvement Plan: A presentation of the City's long and short-term projected capital improvement needs. The planning document is used by staff and the governing body to guide the discussion of current and intermediate term capital requirements.

Enterprise Fund: A fund in which operations are expected to fund operations in a manner similar to a private business enterprise. The costs of operating are expected to be financed on a continuing basis through user charges (rates) rather than through taxes.

Infrastructure: Capital assets which are immovable and have value only to a governmental unit such as, roads, sidewalks, bridges, streetlights, parking lots, water, wastewater, fiber, and electrical systems.

Operating Annual Expenditures: Items required for the operation of the City departments in the provision of City services. Small tools and equipment less than or equal to five-thousand dollars

Introduction

(\$5,000), the purchase of lower value Capital Assets and minor maintenance to existing buildings and facilities.

Operating Budget: The amount of monies the City allots annually to perform municipal functions.

Conclusion

The Capital Improvement Plan is a five-year capital plan for infrastructure, parks, and facility improvements crucial to livability within the City. The purpose of instituting this annual capital review process is to provide the governing body and the community opportunities to discuss capital needs at the present and into the future. When building the CIP, staff concentrated on building upon core strategic priorities of the governing body and the community. Funds in the CIP are being allocated primarily in support of public safety operations and equipment, protecting the community's sizable investment in its road and utility networks provided recreational opportunities in park lands and recreational facilities, and assisting in creation of an environment conducive to economic development prospects. The annual nature of this process allows staff to review the appropriateness of various funding mechanism discussed above. By adopting the CIP, the governing body is only beginning a dialogue with staff and the community. Presentation of the CIP is the first step in the process. Projects are then reviewed by the council and adopted into the annual budget. The annual nature of the process allows for flexibility to alter courses of action in order to serve the needs of the community or respond to economic or other external issues which may impact the dynamics of any given project. As the year progresses, various fiscal, regulatory, or other external factors can necessitate changing the scope or even need of a project. This is one of the primary reasons adoption of a CIP is not unilateral spending approval to carry out a capital project.

How to Use This Document

Interpreting Projects

The project pages will be structured to provide information, both fiscal and factual about the project as well as contextualize the projected need for overall operations of the departments.

How to read a capital project number:

The fiscal year represents the first-year work will occur on the project at the time of the project's inclusion in the CIP. This allows the reader to see projects that have been deferred over multiple years as well as projects that are ongoing or require multi-year phases.

Funding Source

Funding for capital projects comes from three major sources:

- 1. Taxes and Fees:** including, but not limited to, utility rates, fiber customer fees, franchise taxes, state gas tax, transportation tax, sales taxes, property tax, park tax, business license tax, and capital improvement tax.
- 2. Bond Proceeds:** debt securities issued to finance capital expenditures with repayment requirements.
- 3. Grants and Partnerships:** financial awards given by state, regional and federal sources or projects jointly planned with other local or state jurisdictions.

73 - Airport

Taxiway Rehabilitation

Project Number 73-APT-001-23

Improvement Type Land & Land Improvements

Division 73 - 100 - Airport General

Description Taxiway rehabilitation and installation of lighting system.

Justification The parallel taxiway was originally constructed in 2004 and needs joint and marking repairs and improvements in order to mitigate FOD and extend its useful life. Currently the taxiway edges are indicated by 3-foot reflectors. The installation of taxiway edge lights and lighted runway hold short signs would exponentially improve

Exhibition Hall Chairs

Project Number 01-CCC-001-21

Improvement Type Furniture & Office Equipment

Division 22 - 605 - General

Description New tables for Exhibition Hall 175

Justification Existing tables are over 30 years old. Many have holes in the tops, legs are no longer sturdy enough for some events. We have been using some tables from Civic Center to compensate for broken or defective tables at Mills Center. We have many wedding receptions and family gatherings and the tables need to be usable.

80 - Electric

Material Handler Bucket Trucks

Project Number 80-ELF-001-26

Improvement Type Vehicles

Division 80-200 Electric

Description Replacement or a material handler bucket truck

Justification This will replace a 2007 and 2010 bucket trucks that have reached the end of its useful life in accordance with the capitalization policy.

Funding Source	2026	2027	2028	2029	2030	Total
Electric Rates	\$0	\$450,000	\$0	\$450,000	\$0	\$900,000
						\$0
						\$0
Project Totals	\$0	\$450,000	\$0	\$450,000	\$0	\$900,000

80 - Electric

Substation #3 Improvements

Project Number 80-ELX-010-21

Improvement Type Machinery & Equipment

Division 80 - 215 - Electric Reserve

Description Replace 69kV circuit switcher, Transformer #1 with a 12 MVA unit, and associated foundations.

Justification These improvements were identified by Toth and Associates in the 2019 electric system study. Existing transformer is insufficiently rated to pick up all feeders during peak loading. Increasing this transformer to a 12 MVA will significantly improve reliability. The existing circuit switcher will be checked for proper phase spacing and

Funding Source	2026	2027	2028	2029	2030	Total
Electric Rates	\$0	\$0	\$800,000	\$0	\$0	\$800,000
						\$0
						\$0
Project Totals	\$0	\$0	\$800,000	\$0	\$0	\$800,000

80 - Electric

Primary System Improvements

Project Number 80-ELX-004-21

Improvement Type Land & Land Improvements

Division 80 - 215 - Electric Reserve

Description Construct approximately 0.25 miles of 3 phase 4/0 URD. Also, convert approximately 0.24 miles of existing single phase to 3 phase 1/0 ACSR.

Justification These improvements were identified by Toth and Associates in the 2019 electric system study. Extending this feed will improve reliability in the area by not serving most of the houses from private right of way which could be hard to access at times.

Funding Source	2026	2027	2028	2029	2030	Total
Electric Rates	\$0	\$0	\$371,000	\$0	\$0	\$371,000
						\$0
						\$0
Project Totals	\$0	\$0	\$371,000	\$0	\$0	\$371,000

80 - Electric

Skid Steer

Project Number 80-ELF-001-27

Improvement Type Machinery & Equipment

Division 80-200 Electric

Description Replace current skid steer

Justification This will replace the 2013 skid steer that has reached the end of its useful life in accordance with the capitalization policy.

Funding Source	2026	2027	2028	2029	2030	Total
Electric Rates	\$0	\$100,000	\$0	\$0	\$0	\$100,000
						\$0
						\$0
Project Totals	\$0	\$100,000	\$0	\$0	\$0	\$100,000

80 - Electric

Sectionalizing Improvements

Project Number 80-ELX-008-21

Improvement Type Machinery & Equipment

Division 80 - 215 - Electric Reserve

Description Install 3 phase reclosers; one (1) on feeder 7030, one (1) on feeder 1050, and one(1) on feeder 5060.

Justification These improvements were identified by Toth and Associates in the 2019 electric system study. Installing the 3 phase reclosers will decrease the number of customers affected during an outage by isolating the fault downline, This will add reliability and increases our sectionalizing capacity

Funding Source	2026	2027	2028	2029	2030	Total
Electric Rates	\$0	\$0	\$290,000	\$0	\$0	\$290,000
						\$0
						\$0
Project Totals	\$0	\$0	\$290,000	\$0	\$0	\$290,000

80 - Electric

Substation Improvements #7

Project Number 80-ELX-013-21

Improvement Type Machinery & Equipment

Division 80 - 215 - Electric Reserve

Description Replace transformer with 12 MVA unit. Add breaker and foundation to spare bay for new feeder. Replace outdoor relay cabinet with indoor standard protection panel.

Justification These improvements were identified by Toth and Associates in the 2019 electric system study. This will create a new feeder to serve load located east from the station. This will create the ability to pick up critical loads during a contingency, achieve existing transformer protection, improve reliability, and the ability to capture

Funding Source	2026	2027	2028	2029	2030	Total
Electric Rates	\$0	\$0	\$0	\$600,000	\$600,000	\$1,200,000

Insulator Upgrades

Project Number 80-ELF-018-21

Improvement Type Machinery & Equipment

Division 80 - 215 - Electric Reserve

Description Replacement of existing porcelain insulators.

Justification Porcelain insulators are brittle making them crack and break rather easy. Replacing them with polymer insulators increases their lifespan therefore reducing material costs and potential outages. This will increase reliability, improve system longevity and decrease maintenance costs.

Funding Source	2026	2027	2028	2029	2030	Total

Bunker Gear

Project Number 22-FDE-001-17

Improvement Type Machinery & Equipment

Division 22 - 605 - General

Description Purchase of new bunker pants, coats, and boots

Justification The Fire Department has established a bunker gear program which provides each firefighter two set of gear. This allows personnel to wash and repair a set of gear as needed and have a second set to wear. The process also provides a rotation in which no gear is ever 10 years old or older. NFPA recommends replacing gear every 10 years.

79 - Parks

Replacement of playground fall protection

Project Number 79-PKX-001-30

Improvement Type Machinery & Equipment

Division 79-500 Parks Operation and Administration

Description Replacement of fall protection

Justification Replacing pour in place fall protection with turf fall protection due to normal wear and tear.

Funding Source	2026	2027	2028	2029	2030	Total
Park Tax and Fees	\$0	\$0	\$125,000	\$0	\$0	\$125,000
						\$0
						\$0
Project Totals	\$0	\$0	\$125,000	\$0	\$0	\$125,000

79 - Parks

Pitching Mounds

Project Number 79-PKX-001-29

Improvement Type Machinery & Equipment

Division 79-500 Parks Operation and Administration

Description Replacement of baseball field pitching mounds

Justification New mounds will be needed due to normal wear and tear over the long ball seasons

Funding Source	2026	2027	2028	2029	2030	Total
Park Tax and Fees	\$0	\$0	\$0	\$45,000	\$0	\$45,000
						\$0

Project Totals	\$0	\$0	\$0	\$45,000	\$0	\$45,000

79 - Parks

Harke Park Improvements

Project Number 79-PKX-002-27

Improvement Type Building & Building Improvements

Division 79-500 Parks Operation and Administration

Description Replacement of large shelter at fron entrance of Park.

Justification Harke is one of our most rented parks and a larger shelter is necessary to accommodate rentals.

Funding Source	2026	2027	2028	2029	2030	Total
Park Tax and Fees	\$0	\$0	\$0	\$0	\$125,000	\$125,000
						\$0
						\$0
Project Totals	\$0	\$0	\$0	\$0	\$125,000	\$125,000

79 - Parks

Soccer Field Improvements

Project Number 79-PKX-003-28

Improvement Type Machinery & Equipment

Division 79-500 Parks Operations and Administration

Description Lights for soccer fields

Justification In order to grow the soccer leagues more games are needed to be played and by adding lights games can be played later in the night which adds to the chances of growing leagues and hosting tournaments.

Funding Source	2026	2027	2028	2029	2030	Total
Park Tax and Fees	\$0	\$0	\$150,000	\$0	\$0	\$150,000

79 - Parks

Purchase New Vehicle

Project Number 79-PKX-004-24

Improvement Type Vehicles

Division 79 - 500 - Parks Operation and Administration

Description Replacement of current vehicles

Justification Replacement of vehicles based on the equipment replacement schedule

Funding Source	2026	2027	2028	2029	2030	Total
Park Tax and Fees	\$0	\$0	\$41,500	\$29,000	\$42,500	\$113,000
						\$0
						\$0
Project Totals	\$0	\$0	\$41,500	\$29,000	\$42,500	\$113,000

79 - Parks

Boswell Park Shelter 1 & 3 Replacement

Project Number 79-PKX-005-24

Improvement Type Building & Building Improvements

Division 79 - 500 - Parks Operation and Administration

Description Replacement of shelters throughout the parks

Justification Several shelters are getting old and in need of several repairs, replacing them is part of the maintenance replacement schedule

Funding Source	2026	2027	2028	2029	2030	Total
Park Tax and Fees	\$0	\$0	\$85,000	\$0	\$0	\$85,000

						\$0
Project Totals	\$0	\$0	\$85,000	\$0	\$0	\$85,000

79 - Parks

Atchley Park Phase 2

Project Number 79-PKX-002-25

Improvement Type Land & Land Improvement

Division 79-500 Parks Operation and Administration

Description New concession stand/restroom, replace shelter 1, splash pad

Justification The restroom and concession stand is outdated and was built to serve 2 fields with adults playing, we now have 4 fields that are used by children and need to be replaced to fill the needs of the ball tournaments.

Funding Source	2026	2027	2028	2029	2030	Total
Park Tax and Fees	\$600,000	\$0	\$0	\$0	\$0	\$600,000
						\$0
						\$0
Project Totals	\$600,000	\$0	\$0	\$0	\$0	\$600,000

79 - Parks

Atchley Park Phase 3

Project Number	79-PKX-003-27
Improvement Type	Land & Land Improvement
Division	79-500 Parks Operation and Administration
Description	Pave lower parking lot, install pickleball and basketball courts, new shelter/restrooms
Justification	The master plan calls for the addition of pickleball and tennis courts and also a shelter/restroom to better serve the needs of the park patrons.

Funding Source	2026	2027	2028	2029	2030	Total
Park Tax and Fees	\$0	\$750,000	\$0	\$0	\$0	\$750,000

03 - Public Safety

Vest Replacement (Soft Body Armor)

Project Number 03-PDA-001-23

Improvement Type Machinery & Equipment

Division 03 - 515 - Police Public Safety

Description Replace vests as they expire (Soft Body Armor)

Justification Soft body armor expires every 5 years

Funding Source	2026	2027	2028	2029	2030	Total
Capital Improvement Tax	\$5,000	\$5,000	\$5,000	\$5,000	\$5,000	\$25,000
						\$0
						\$0
Project Totals	\$5,000	\$5,000	\$5,000	\$5,000	\$5,000	\$25,000

03 - Public Safety

Taser X2 Replacement

Project Number 03-PDA-004-23

Improvement Type Machinery & Equipment

Division 03 - 515 - Police Public Safety

Description Purchase Taser X2 to replace older equipment

Justification Tasers are electronic devices that need to be replaced over time due to normal wear and tear (5 per year).

Funding Source	2026	2027	2028	2029	2030	Total
Capital Improvement Tax	\$18,000	\$18,000	\$18,000	\$18,000	\$18,000	\$90,000
						\$0
						\$0
Project Totals	\$18,000	\$18,000	\$18,000	\$18,000	\$18,000	\$90,000

03 - Public Safety

IP Camera Solution

Project Number 03-PDX-001-21

Improvement Type Machinery & Equipment

Division 03 - 515 - Police Public Safety

Description IP cameras through locations within city

Justification Cameras will be instrumental in solving crimes and apprehending suspects

Funding Source	2026	2027	2028	2029	2030	Total
Capital Improvement Tax	\$0	\$0	\$0	\$12,000	\$0	\$12,000
						\$0
						\$0
	\$0	\$0	\$0	\$12,000	\$0	\$12,000

03 - Public Safety

Outer Vest Project

Project Number 03-PDA-006-24

Improvement Type Machinery & Equipment

Division 03-515 Public Safety Police

Description Purchase 32 outer vests

Justification An interna survey identified that officers are wanting to wear outer vests for health reasons.

Funding Source	2026	2027	2028	2029	2030	Total
Capital Improvement Tax	\$1,800	\$1,800	\$1,800	\$1,800	\$1,800	\$9,000
						\$0
						\$0
Project Totals	\$1,800	\$1,800	\$1,800	\$1,800	\$1,800	\$9,000

03 - Public Safety

MORPHO Fingerprint Scanner

Project Number	03-PDA-004-24
Improvement Type	Machinery & Equipment
Division	03-515 Public Safety Police
Description	Purchase a fingerprint scanner and dedicated Mobile Data Terminal for roadside identification.
Justification	The scanner will identify people using false identification of information during roadside encounters.

Funding Source	2026	2027	2028	2029	2030	Total
Public Safety	\$0	\$0	\$0	\$4,000	\$4,000	\$8,000
						\$0
						\$0
Project Totals	\$0	\$0	\$0	\$4,000	\$4,000	\$8,000

03 - Public Safety

Point and Shoot Cameras

Project Number 03-PDA-002-24

Improvement Type Machinery & Equipment

Division 03-515 Public Safety Police

Description Purchase 32 Poin and Shoot Cameras

Justification Cameras are needed to gather photographic evidence during investigations. Our current cameras are malfunctioning.

Funding Source	2026	2027	2028	2029	2030	Total
Capital Improvement Tax	\$0	\$0	\$4,800	\$0	\$0	\$4,800
						\$0
						\$0
Project Totals	\$0	\$0	\$4,800	\$0	\$0	\$4,800

03 - Public Safety

Individual First Aid Kits

Project Number 03-PDA-003-24

Improvement Type Machinery & Equipment

Division 03-515 Public Safety Police

Description Purchase 32 individual First Aid Kits for tactical vests.

Justification Individual First Aid Kits contain items to treat critical wounds at active threat situations.

Funding Source	2026	2027	2028	2029	2030	Total
Public Safety	\$0	\$0	\$3,500	\$0	\$0	\$3,500

Project Totals	\$500,000	\$0	\$0	\$0	\$0	\$500,000

22 - Capital

Replace existing Computer System

Project Number 01-PDA 01-PDA-002-19

Improvement Type Furniture & Office Equipment

Division 03-515 Public Safety Police

Description Replacement of desktops or laptops with Win 7-32 bit OS with Win 10 or greater.

Justification Current desktops and in-car tablets are at end of life and most were already years old since they were received from DOD free program. Through DOD the department will continue to stay on the list, but some systems are not compatible with NET framework 4.5, which is required by CIIS and Omnigo.

Funding Source	2026	2027	2028	2029	2030	Total
Capital Improvement Tax	\$16,000	\$16,000	\$16,000	\$16,000	\$16,000	\$80,000
						\$0
						\$0
Project Totals	\$16,000	\$16,000	\$16,000	\$16,000	\$16,000	\$80,000

22 - Capital

911 Hardware

Project Number 22-PDA 01-PDA-002-19

Improvement Type Furniture & Office Equipment

Division 22-605 General

Description Purchase of hardware and software for in-house 911 System

Justification Current 911 system is a branch off the county 911 system. The laptop configuration is designed for mobile command structures, not a fixed installation. Also, the county relays calls to the City or uses over-the-air communication and ther City would like to go back to silent dispatch methods deployed in our fleet.

Funding Source	2026	2027	2028	2029	2030	Total
Capital Improvement Fund	\$4,000	\$4,000	\$4,000	\$4,000	\$4,000	\$20,000

85 - Waste Water

CCTV Van

Project Number 85-WWO-001-29

Improvement Type Vehicle

Division 85-200 Wastewater

Description Purchase new CCTV van and equipment

Justification The existing 2014 unit is reaching the end of its useful life. The CCTV system is used to locate and identify service connections and defects throughout the collection system.

Funding Source	2026	2027	2028	2029	2030	Total
0	\$0	\$0	\$0	\$400,000	\$0	\$400,000
						\$0
						\$0
Project Totals	\$0	\$0	\$0	\$400,000	\$0	\$400,000

85 - Waste Water

Combination Cleaning Truck

Project Number 85-WWO-001-26

Improvement Type Vehicle

Division 85-200 Wastewater

Description Purchase new combination cleaning truck

Justification The existing 2016 Vacall combination unit will be 10 years old and at its useful service life. The cleaning truck is critical piece of equipment used to assist the division in providing quality wastewater service to our customers and protecting the environment.

Funding Source	2026	2027	2028	2029	2030	Total
Sewer Rates	\$500,000	\$0	\$0	\$0	\$0	\$500,000
						\$0
						\$0
Project Totals	\$500,000	\$0	\$0	\$0	\$0	\$500,000

Benchtop Spectrophotometer

Project Number 85-WWO-002-19

Improvement Type	Machinery & Equipment
-------------------------	-----------------------

Division 85 - 200 - WWTP and Operation

Description	Replacement of the existing benchtop Spectrophotometer at the wastewater treatment plant. Note: Formerly 85-ENV-002-19
--------------------	--

Justification	This will replace the existing meter that is used in daily DNR compliance testing. The meter has reached the end of its useful service life.
----------------------	--

Funding Source	2026	2027	2028	2029	2030	Total
Sewer Rates	\$8,500	\$0	\$0	\$0	\$0	\$8,500
						\$0
						\$0
Project Totals	\$8,500	\$0	\$0	\$0	\$0	\$8,500

85 - Waste Water

Backhoe Replacement

Project Number 85-WWO-002-30

Improvement Type Machinery & Equipment

Division 85-200 Wastewater

Description Purchase New Backhoe

Justification The existing backhoe is reaching the end of its useful life. Backhoes are used in the daily operation of the division.

Funding Source	2026	2027	2028	2029	2030	Total
Sewer Rates	\$0	\$0	\$0	\$0	\$120,000	\$120,000
						\$0
						\$0
Project Totals	\$0	\$0	\$0	\$0	\$120,000	\$120,000

85 - Waste Water

Analitical Scale

Project Number 85-WWO-002-24

Improvement Type Machinery & Equipment

Division 85 - 200 - WWTP and Operation

Description Replacement of EPA compliant analytical scale

Justification This will replace the existing analytical scale that is used in daily DNR compliance testing. The existing equipment will have reached the end of its useful service life

Funding Source	2026	2027	2028	2029	2030	Total
Sewer Rates	\$0	\$0	\$0	\$0	\$4,000	\$4,000
						\$0
						\$0
Project Totals	\$0	\$0	\$0	\$0	\$4,000	\$4,000

85 - Waste Water

Replace Existing Wastewater Computer Systems

Project Number 85-WWO-003-18

Improvement Type Furniture & Office Equipment

Division 85 - 200 - WWTP and Operation

Description Replacement of desktops, laptops, or tablets Win 7, 32 bit with Win 10 or greater.
Note: Formerly 85-ENV-003-18

Justification Current systems are at their end of life and were purchased in 2014 and 2015. Some were received from Jefferson City state program and were already a few years old. We would like to implement tablets in the field as well to become more mobile and digital. The new systems would be capable of handling current suites and or

Funding Source	2026	2027	2028	2029	2030	Total
Sewer Rates	\$7,500	\$7,500	\$7,500	\$7,500	\$7,500	\$37,500
						\$0
						\$0
Project Totals	\$7,500	\$7,500	\$7,500	\$7,500	\$7,500	\$37,500

85 - Waste Water

BOD Refrigerator

Project Number 85-WWO-003-24

Improvement Type Machinery & Equipment

Division 85 - 200 - WWTP and Operation

Description Replacement of EPA compliant BOD Refrigerator

Justification This will replace the existing BOD refrigerator that is used in daily DNR compliance testing. The existing equipment will have reached the end of its useful service life

Funding Source	2026	2027	2028	2029	2030	Total
Sewer Rates	\$7,500	\$0	\$0	\$0	\$0	\$7,500
						\$0
						\$0
Project Totals	\$7,500	\$0	\$0	\$0	\$0	\$7,500

85 - Waste Water

Sewer Main: Perry Street

Project Number	85-WWO-004-21
Improvement Type	Land & Land Improvements
Division	85 - 200 - WWTP and Operation
Description	Dig up and replace 4 manholes and 1,000 linear feet of 6-inch diameter Clay Tile pipe with 8-inch diameter PVC. Note: Formerly 85-ENV-004-21
Justification	Existing sewer mains that have countless defects identified during routine collection system inspections considered failed infrastructure. These lines allow inflow and infiltration into the collection system during rain events contributing to wet-weather peak flows and sanitary sewer overflows

Funding Source	2026	2027	2028	2029	2030	Total
Sewer Rates	\$0	\$55,000	\$0	\$0	\$0	\$55,000
						\$0
						\$0
Project Totals	\$0	\$55,000	\$0	\$0	\$0	\$55,000

85 - Waste Water

IDEX

Project Number 85-WWO-005-21

Improvement Type Machinery & Equipment

Division 85 - 200 - WWTP and Operation

Description Replacement of EPA compliant E. coli testing equipment. Note: Formerly 85-ENV005-21

Justification This will replace the existing testing equipment that is used in weekly DNR compliance testing. The existing equipment will have reached the end of its useful service life.

Funding Source	2026	2027	2028	2029	2030	Total
Sewer Rates	\$0	\$0	\$0	\$0	\$6,000	\$6,000
						\$0
						\$0
Project Totals	\$0	\$0	\$0	\$0	\$6,000	\$6,000

85 - Waste Water

UV System Parts

Project Number 85-WWO-006-23

Improvement Type Machinery & Equipment

Division 85 - 200 - WWTP and Operation

Description Maintenance and replacement parts on UV System

Justification The UV system has been giving us performance issues and it was recommended that the parts should be repaired or replaced where needed.

Funding Source	2026	2027	2028	2029	2030	Total
Sewer Rates	\$50,000	\$50,000	\$50,000	\$50,000	\$50,000	\$250,000
						\$0
						\$0
Project Totals	\$50,000	\$50,000	\$50,000	\$50,000	\$50,000	\$250,000

85 - Waste Water

Lift Station SCADA

Project Number 85-WWO-007-15

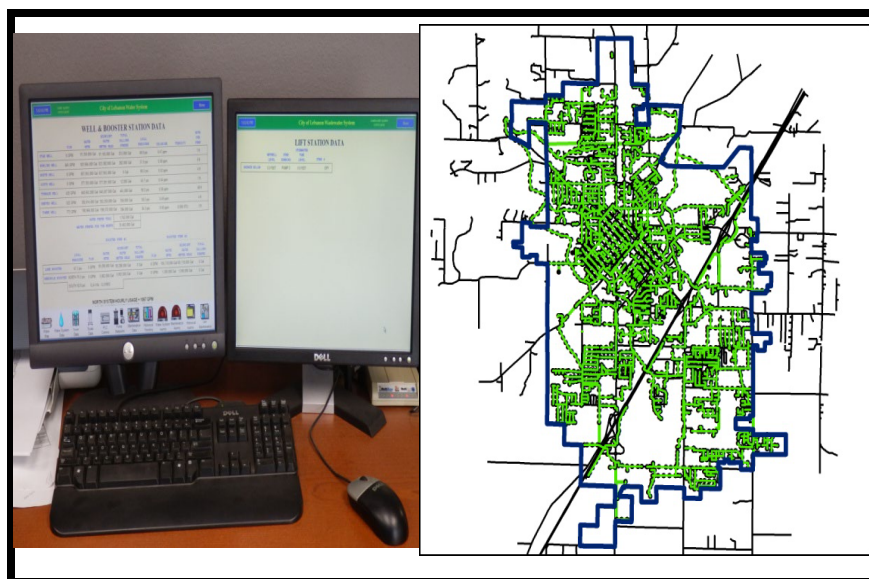

Improvement Type Machinery & Equipment

Division 85 - 200 - WWTP and Operation

Description Install wireless communication network and Programmable Logic Controllers (PLC).
Note: Formerly 85-ENV-007-15

Justification Installation of the SCADA system will provide better management and maintenance of critical lift station infrastructure. Use of SCADA technology will allow staff to remotely monitor and operate the lift stations. It will create enhanced reporting as the system would log the run hours from the meters on each pump, as well as provide alarm

Funding Source	2026	2027	2028	2029	2030	Total
Sewer Rates	\$20,000	\$20,000	\$20,000	\$20,000	\$20,000	\$100,000
						\$0
						\$0
Project Totals	\$20,000	\$20,000	\$20,000	\$20,000	\$20,000	\$100,000

85 - Waste Water

Pickup Trucks

Project Number 85-WWO-007-16

Improvement Type Vehicles

Division 85 - 200 - WWTP and Operation

Description Purchase of one new three-quarter ton 4 x 4 pickups to replace a 2006 model unit.
Note: Formerly 85-ENV-007-16

Justification Three quarter ton pickups are used to transport personnel, tools, and equipment to jobsites. Pickups being replaced are approaching the end of service life and in line with the City Capitalization policy.

Funding Source	2026	2027	2028	2029	2030	Total
Sewer Rates	\$0	\$0	\$55,000	\$0	\$0	\$55,000
						\$0
						\$0
Project Totals	\$0	\$0	\$55,000	\$0	\$0	\$55,000

85 - Waste Water

Portable Trash Pump

Project Number 85-WWO-008-16

Improvement Type Machinery & Equipment

Division 85 - 200 - WWTP and Operation

Description Two inch to four inch portable trash pumps

Justification Replacement of pumps that are used in the construction and maintenance of the wastewater collection system and have reached the end of their useful life

Funding Source	2026	2027	2028	2029	2030	Total
Sewer Rates	\$0	\$0	\$4,000	\$0	\$0	\$4,000
						\$0
						\$0
Project Totals	\$0	\$0	\$4,000	\$0	\$0	\$4,000

85 - Waste Water

Portable Flow Meters

Project Number 85-WWO-008-19

Improvement Type Machinery & Equipment

Division 85 - 200 - WWTP and Operation

Description Portable Area Velocity Flow Meters

Justification Purchase will enhance the ability to locate lines with increased flow within the wastewater collection system during rain events

Funding Source	2026	2027	2028	2029	2030	Total
Sewer Rates	\$20,000	\$0	\$0	\$0	\$0	\$20,000
						\$0
						\$0
Project Totals	\$20,000	\$0	\$0	\$0	\$0	\$20,000

85 - Waste Water

Wastewater Equipment Repairs

Project Number	85-WWO-008-21
Improvement Type	Machinery & Equipment
Division	85 - 200 - WWTP and Operation
Description	Replacement/Rebuild of Wastewater Pumps, Motors, and Equipment
Justification	Maintain equipment to insure reliability and to help reduce wastewater backups/overflows

Funding Source	2026	2027	2028	2029	2030	Total
Sewer Rates	\$125,000	\$125,000	\$125,000	\$125,000	\$125,000	\$625,000
						\$0
						\$0
Project Totals	\$125,000	\$125,000	\$125,000	\$125,000	\$125,000	\$625,000

85 - Waste Water

Liftstation Critical Parts

Project Number 85-WWO-009-19

Improvement Type Machinery & Equipment

Division 85 - 200 - WWTP and Operation

Description Critical parts to keep the 43 liftstations operational

Justification Purchasing Critical parts and having them on hand will help eliminate a wastewater backup and/or overflow

Funding Source	2026	2027	2028	2029	2030	Total
Sewer Rates	\$15,000	\$0	\$0	\$0	\$0	\$15,000
						\$0
						\$0
Project Totals	\$15,000	\$0	\$0	\$0	\$0	\$15,000

85 - Waste Water

Trunk Sewer Replacement from South 5 to Evergreen North Side of Manors

Project Number 85-WWX-001-21

Improvement Type Land & Land Improvements

Division 85 - 200 - WWTP and Operation

Description Replace 3,000 Linear Feet of 15 inch sewer main and 11 Manholes

Justification The existing line allows rain water to enter the collection system during heavy rains and overloads the capacity of the line and causes overflows

Funding Source	2026	2027	2028	2029	2030	Total
Sewer Rates	\$0	\$0	\$0	\$180,000	\$0	\$180,000
						\$0
						\$0
Project Totals	\$0	\$0	\$0	\$180,000	\$0	\$180,000

85 - Waste Water

Samplers

Project Number 85-WWX-003-21

Improvement Type Machinery & Equipment

Division 85 - 200 - WWTP and Operation

Description Portable Sampler used for the Industrial pretreatment program

Justification Portable samplers are used in the departments industrial pretreatment program. and with the recent changes to the program two additional samplers are needed

Funding Source	2026	2027	2028	2029	2030	Total
Sewer Rates	\$11,000	\$11,000	\$0	\$0	\$0	\$22,000
						\$0
						\$0
Project Totals	\$11,000	\$11,000	\$0	\$0	\$0	\$22,000

87 - Water

Hwy 5 Rosenthal to Woodhill water tie line

Project Number 87-WTR-001-17

Improvement Type Land & Land Improvements

Division 87 - 200 - Water Operation

Description Construct 850 linear feet of 12 inch & 2,600 linear feet of 8 inch water main

Justification This will eliminate two dead end water lines and increase the fire flow and improve the distribution system in this area

Funding Source	2026	2027	2028	2029	2030	Total
Water Rates	\$0	\$0	\$0	\$0	\$200,000	\$200,000
						\$0
						\$0
Project Totals	\$0	\$0	\$0	\$0	\$200,000	\$200,000

87 - Water

Nathaniel to Steele tie line

Project Number	87-WTR-001-18
Improvement Type	Land & Land Improvements
Division	87 - 200 - Water Operation
Description	Construction of 1,000 linear feet of 12 inch and 800 linear feet of 8 inch waterline
Justification	This will eliminate two dead end water lines and increase the fire flow and improve the distribution system in this area

Funding Source	2026	2027	2028	2029	2030	Total
Water Rates	\$0	\$0	\$0	\$0	\$80,000	\$80,000
						\$0
						\$0
Project Totals	\$0	\$0	\$0	\$0	\$80,000	\$80,000

87 - Water

Water Tie Line: Twin Oaks & Tower

Project Number	87-WTR-001-21
Improvement Type	Land & Land Improvements
Division	87 - 200 - Water Operation
Description	Install approximately 650 linear feet of 6-inch and 350 linear feet of 8-inch water line and 1 fire hydrant. Note: Formerly 87-ENV-001-21
Justification	This will eliminate a dead end water line, creating a loop feed improving the water distribution system in this area of the distribution system.

Funding Source	2026	2027	2028	2029	2030	Total
Water Rates	\$40,000	\$0	\$0	\$0	\$0	\$40,000
						\$0
						\$0
Project Totals	\$40,000	\$0	\$0	\$0	\$0	\$40,000

87 - Water

North 5/Atchley Park Water Line Replacement

Project Number 87-WTR-007-26

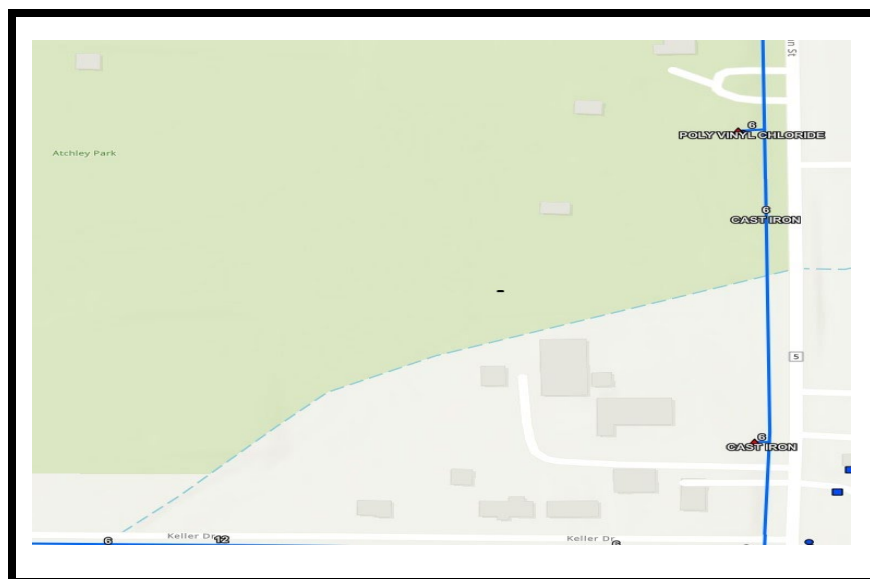

Improvement Type Land & Land Improvements

Division 87-200 Water

Description Replace 1,600 linear feet of 6 inch cast iron with PVC water main.

Justification The existing cast iron lines have a history of leaks. Installing the 6-inch main line will improve the distribution system in this area.

Funding Source	2026	2027	2028	2029	2030	Total
Water Rates	\$100,000	\$0	\$0	\$0	\$0	\$100,000
						\$0
						\$0
Project Totals	\$100,000	\$0	\$0	\$0	\$0	\$100,000

87 - Water

Utah Tower Improvements

Project Number 87-WTR-001-24

Improvement Type Building & Building Improvements

Division 87 - 200 - Water Operation

Description Evaluate well and water tower and update model

Justification This is to see how the lower elevation to the rest of the water distribution on the north side affects the water age in the tower. This will help in managing the water system more efficiently

Funding Source	2026	2027	2028	2029	2030	Total
Water Rates	\$0	\$0	\$500,000	\$0	\$0	\$500,000
						\$0
						\$0
Project Totals	\$0	\$0	\$500,000	\$0	\$0	\$500,000

87 - Water

Osage Water Line Replacement

Project Number 87-WTR-001-26

Improvement Type Land & Land Improvements

Division 87 - 200 - Water Operation

Description Installation of 1,000 linear feet of 8 inch water line

Justification This will eliminate 2,000 linear feet of 6 inch cast iron currently installed in the backyards . there is a history of leaks on these lines

Funding Source	2026	2027	2028	2029	2030	Total
Water Rates	\$100,000	\$0	\$0	\$0	\$0	\$100,000
						\$0
						\$0
Project Totals	\$100,000	\$0	\$0	\$0	\$0	\$100,000

87 - Water

Backhoe (replacement)

Project Number 87-WTR-001-27

Improvement Type Machinery & Equipment

Division 87 - 200 - Water Operation

Description Purchase new backhoe

Justification The existing backhoe is reaching the end of its useful life. Backhoes are used in the daily operations of the division

Funding Source	2026	2027	2028	2029	2030	Total
Water Rates	\$0	\$120,000	\$0	\$0	\$0	\$120,000
						\$0
						\$0
Project Totals	\$0	\$120,000	\$0	\$0	\$0	\$120,000

87 - Water

Install 6 inch PVC water Main across Elm St at Monroe.

Project Number 87-WTR-001-28

Improvement Type Land & Land Improvements

Division 87 - 200 - Water Operation

Description Install 340 linear feet of 6 inch PVC water main

Justification This will eliminate a dead end water line and increase the fire flow and improve the distribution system in this area

Funding Source	2026	2027	2028	2029	2030	Total
Water Rates	\$0	\$0	\$0	\$70,000	\$0	\$70,000
						\$0
						\$0
Project Totals	\$0	\$0	\$0	\$70,000	\$0	\$70,000

87 - Water

Park Manor Water Line Replacement

Project Number 87-WTR-002-17

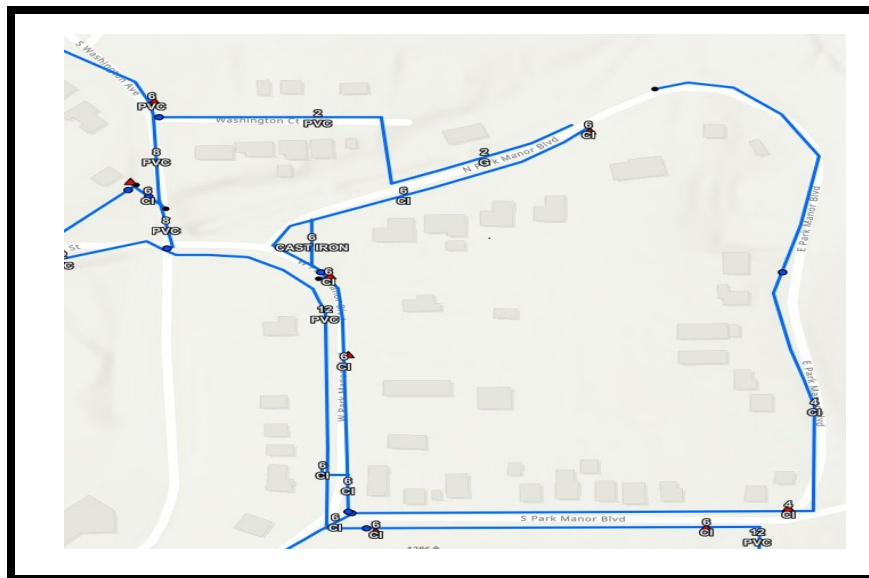

Improvement Type Land & Land Improvements

Division 87 - 200 - Water Operation

Description Replace approximately 1,800 linear feet of 4-inch Cast Iron water line and 41 services with a 6-inch pvc water line

Justification The existing 4-inch Cast Iron line has a history of leaks. and installing a 6 inch main will improve the fire flow and distribution in this area

Funding Source	2026	2027	2028	2029	2030	Total
Water Rates	\$0	\$125,000	\$0	\$0	\$0	\$125,000
						\$0
						\$0
Project Totals	\$0	\$125,000	\$0	\$0	\$0	\$125,000

87 - Water

Water Main: Hunters Creek

Project Number 87-WTR-002-23

Improvement Type Land & Land Improvements

Division 87 - 200 - Water Operation

Description Replace approximately 1100 linear feet of 6-inch cast iron water line along Hunters Creek between Northview and Indian Creek. Note: Formerly 87-ENV-002-23

Justification This existing aged 6-inch cast iron pipe has a history of leaks and by installing a new 6-inch PVC line it will improve the water distribution system in this area of the distribution system.

Funding Source	2026	2027	2028	2029	2030	Total
Water Rates	\$70,000	\$0	\$0	\$0	\$0	\$70,000
						\$0
						\$0
Project Totals	\$70,000	\$0	\$0	\$0	\$0	\$70,000

87 - Water

Water Main: Gateway Road

Project Number 87-WTR-002-25

Improvement Type Land & Land Improvements

Division 87 - 200 - Water Operation

Description Replace approximately 2,850 linear feet of 2-inch galvanized line with 6-inch PVC water line along Gateway Rd to the driveway to Goodwin hollow lift station. Note:

Justification This existing aged 2-inch galvanized pipe has a history of leaks and by installing a new 6-inch PVC line it will improve the water distribution system in this area.

Funding Source	2026	2027	2028	2029	2030	Total
Water Rates	\$130,000	\$0	\$0	\$0	\$0	\$130,000
						\$0
						\$0

87 - Water

Donna Circle Water Replacement

Project Number 87-WTR-002-26

Improvement Type Land & Land Improvements

Division 87 - 200 - Water Operation

Description Installation of 1,400 linear feet of 6 inch water line

Justification This will eliminate 900 linear feet of 4 inch cast iron located in the backyards increasing the quality of the distribution system in this area

Funding Source	2026	2027	2028	2029	2030	Total
Water Rates	\$0	\$0	\$0	\$0	\$100,000	\$100,000
						\$0
						\$0
Project Totals	\$0	\$0	\$0	\$0	\$100,000	\$100,000

87 - Water

Connect water main from Raspberry to the east

Project Number 87-WTR-002-27

Improvement Type Land & Land Improvements

Division 87 - 200 - Water Operation

Description Install 540 linear feet of 8 inch PVC water main

Justification This will eliminate a dead end water line and tie them together, creating a loop feed improving the water distribution system in this area

Funding Source	2026	2027	2028	2029	2030	Total
Water Rates	\$0	\$0	\$40,000	\$0	\$0	\$40,000
						\$0
						\$0
Project Totals	\$0	\$0	\$40,000	\$0	\$0	\$40,000

87 - Water

Pickup Trucks

Project Number 87-WTR-003-18

Improvement Type Vehicles

Division 87 - 200 - Water Operation

Description Purchase of one new ¾ ton and two new ½ ton 4 x 4 pickups to replace 2005 and 2006 model units. Purchase of new tandem axle dump truck to replace a 2002 model unit.

Justification Pickups are used to transport personnel, tools, and equipment to jobsites. Pickups being replaced are approaching the end of service life and in line with the City Capitalization policy

Funding Source	2026	2027	2028	2029	2030	Total
Water Rates	\$0	\$55,000	\$0	\$0	\$0	\$55,000
						\$0
						\$0
Project Totals	\$0	\$55,000	\$0	\$0	\$0	\$55,000

87 - Water

Water Main: Manors and South Highway 5

Project Number 87-WTR-003-23

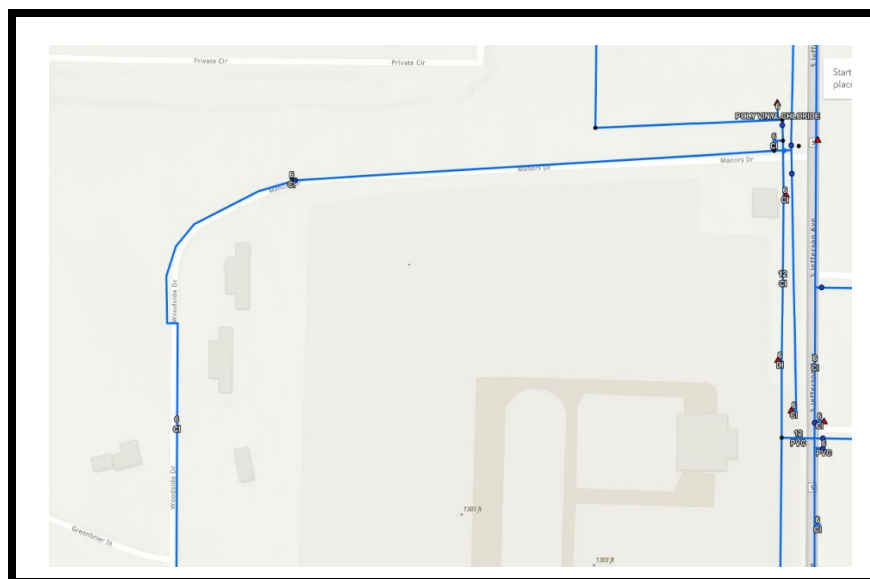

Improvement Type Land & Land Improvements

Division 87 - 200 - Water Operation

Description Replace approximately 1800 linear feet of 6-inch cast iron water line along Manors between Woodside and Hwy 5. Note: Formerly 87-ENV-003-23

Justification This existing aged 6-inch cast iron pipe has a history of leaks and by installing a new 6-inch PVC line it will improve the water distribution system in this area of the distribution system

Funding Source	2026	2027	2028	2029	2030	Total
Water Rates	\$75,000	\$0	\$0	\$0	\$0	\$75,000
						\$0
						\$0
Project Totals	\$75,000	\$0	\$0	\$0	\$0	\$75,000

87 - Water

Winsor water main

Project Number 87-WTR-003-24

Improvement Type Land & Land Improvements

Division 87 - 200 - Water Operation

Description Replace 1,200 linear feet of 4 inch cast iron with 6 inch PVC

Justification The existing 4-inch Cast Iron line has a history of leaks. and installing a 6 inch main will improve the fire flow and distribution in this area

Funding Source	2026	2027	2028	2029	2030	Total
Water Rates	\$75,000	\$0	\$0	\$0	\$0	\$75,000
						\$0
						\$0
Project Totals	\$75,000	\$0	\$0	\$0	\$0	\$75,000

87 - Water

Evergreen Parkway From Southdale to Harley Davidson

Project Number 87-WTR-003-26

Improvement Type Land & Land Improvements

Division 87 - 200 - Water Operation

Description Install approximately 2,700 linear feet of 12 inch water line

Justification This will increase the fire flows in this area of the distribution system. Water Model Recommendation

Funding Source	2026	2027	2028	2029	2030	Total
Water Rates	\$0	\$0	\$0	\$425,000	\$0	\$425,000
						\$0
						\$0
Project Totals	\$0	\$0	\$0	\$425,000	\$0	\$425,000

87 - Water

Connect along Elm St between Owens Dr. and Jackson Ave

Project Number 87-WTR-003-27

Improvement Type Land & Land Improvements

Division 87 - 200 - Water Operation

Description Install 460 linear feet of 6 inch PVC water main

Justification This will eliminate a dead end water line and increase the fire flow and improve the distribution system in this area

Funding Source	2026	2027	2028	2029	2030	Total
Water Rates	\$0	\$30,000	\$0	\$0	\$0	\$30,000
						\$0
						\$0

87 - Water

Water Wells: Chlorine Analyzer Replacements

Project Number 87-WTR-004-19

Improvement Type Machinery & Equipment

Division 87 - 200 - Water Operation

Description Replacement of the existing chlorine analyzers in the seven wells. Note: Formerly 87-ENV-004-19

Justification The existing chlorine analyzers have reached the end of their useful life. The analyzers are used to monitor the chlorine levels at the well. This is a useful tool to better manage the water system and insure safe drinking water is delivered to our customers.

87 - Water

Water Main: Sunrise Drive Tie Line

Project Number	87-WTR-004-25
Improvement Type	Land & Land Improvements
Division	87 - 200 - Water Operation
Description	Install approximately 800 linear feet of 6 PVC water line along Sunrise Drive to Bethel Dr. Dr. Note: Formerly 87-ENV-004-25
Justification	This will eliminate two dead end water lines and tie them together, creating a loop feed improving the water distribution system in this area

Funding Source	2026	2027	2028	2029	2030	Total
Water Rates	\$60,000	\$0		\$0	\$0	\$60,000

						\$0
Project Totals	\$60,000	\$0	\$0	\$0	\$0	\$60,000

87 - Water

Pine Street water main

Project Number 87-WTR-004-26

Improvement Type Land & Land Improvements

Division 87 - 200 - Water Operation

Description Install 400 linear feet of 6 inch PVC water main

Justification This will eliminate 350 linear feet of 2 inch galvanized line. This will improve the fire flow and the distribution system in this area,.

Funding Source	2026	2027	2028	2029	2030	Total

87 - Water

Connect water main at Glenridge and Elm St

Project Number 87-WTR-004-27

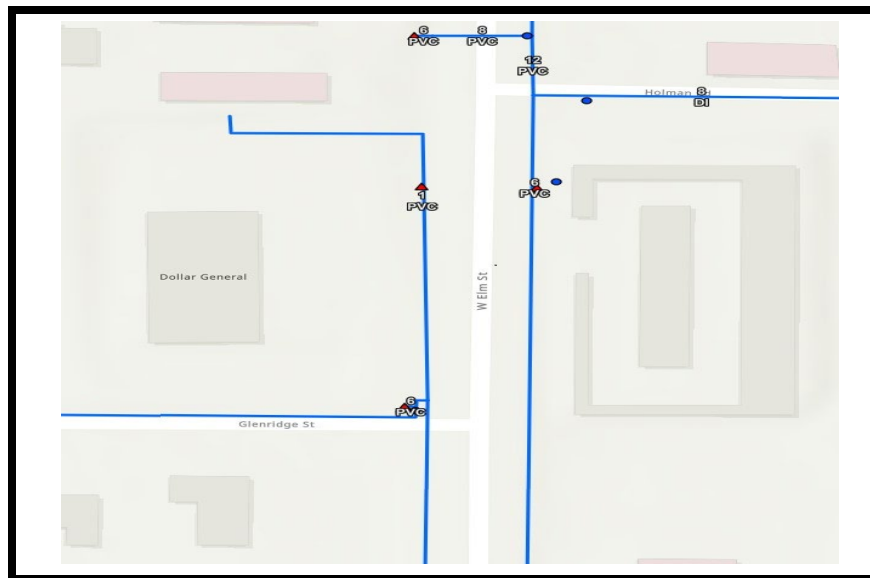

Improvement Type Land & Land Improvements

Division 87 - 200 - Water Operation

Description Install 240 linear feet of 6 inch PVC water main

Justification This will eliminate a dead end water line and tie them together, creating a loop feed improving the water distribution system in this area

Funding Source	2026	2027	2028	2029	2030	Total
Water Rates	\$0	\$0	\$0	\$30,000	\$0	\$30,000
						\$0

Project Totals	\$0	\$0	\$0	\$30,000	\$0	\$30,000

87 - Water

Security Fence at all Well Sites

Project Number 87-WTR-005-25

Improvement Type Building & Building Improvements

Division 87 - 200 - Water Operation

Description Chain link fencing around wells and towers

Justification This is a recommendation from MDNR to provide added security to the water system

Funding Source	2026	2027	2028	2029	2030	Total
Water Rates	\$30,000	\$30,000	\$30,000	\$30,000	\$30,000	\$150,000

87 - Water

Connect water main from Harwood to the west between Harwood and Pearl

Project Number 87-WTR-005-27

Improvement Type Land & Land Improvements

Division 87 - 200 - Water Operation

Description Install 560 linear feet of 6 inch PVC water main

Justification This will eliminate a dead end water line and tie them together, creating a loop feed improving the water distribution system in this area

Funding Source	2026	2027	2028	2029	2030	Total
Water Rates	\$0	\$0	\$0	\$0	\$40,000	\$40,000
						\$0
						\$0
Project Totals	\$0	\$0	\$0	\$0	\$40,000	\$40,000

87 - Water

Well House Improvements

Project Number 87-WTR-006-25

Improvement Type Building & Building Improvements

Division 87 - 200 - Water Operation

Description Inspection to all the wells and booster stations

Justification To help identify the needed maintenance and repairs to include but not limited to the roof, paint inside and out, windows and doors

Funding Source	2026	2027	2028	2029	2030	Total
Water Rates	\$50,000	\$50,000	\$50,000	\$0	\$0	\$150,000

87 - Water

Replace Existing Water Computer Systems

Project Number 87-WTR-007-18

Improvement Type Furniture & Office Equipment

Division 87 - 200 - Water Operation

Description Replacement of desktops, laptops, or tablets with Win 7 32-bit to Win 10. Note: Formerly 87-ENV-005-18

Justification Current systems are at their end of life and were purchased in 2014 and 2015. Some were received from Jefferson City state program and were already a few years old. We would like to implement tablets in the field as well to become more mobile and digital. The new systems would be capable of handling current suites and or

87 - Water

Connect water main on 6th St from Adams Ave, to Washington

Project Number 87-WTR-007-27

Improvement Type Land & Land Improvements

Division 87 - 200 - Water Operation

Description Install 720 linear feet of 6 inch PVC water main

Justification This will eliminate a dead end water line and tie them together, creating a loop feed improving the water distribution system in this area

Funding Source	2026	2027	2028	2029	2030	Total
Water Rates	\$0	\$0	\$0	\$0	\$70,000	\$70,000
						\$0
						\$0
Project Totals	\$0	\$0	\$0	\$0	\$70,000	\$70,000

87 - Water

Connection at Jefferson and Elm St

Project Number 87-WTR-007-27

Improvement Type Land & Land Improvements

Division 87 - 200 - Water Operation

Description Install 100 linear feet 6 inch PVC water main

Justification By tying this 6 inch and 8 inch together it will increase fire flow and improve the distribution system in this area,

Funding Source	2026	2027	2028	2029	2030	Total
Water Rates	\$0	\$87,000	\$0	\$0	\$0	\$87,000

						\$0
Project Totals	\$100,000	\$0	\$0	\$0	\$0	\$100,000

87 - Water

Connection at Lynn St between Sunset Dr & Kuhn St

Project Number 87-WTR-008-27

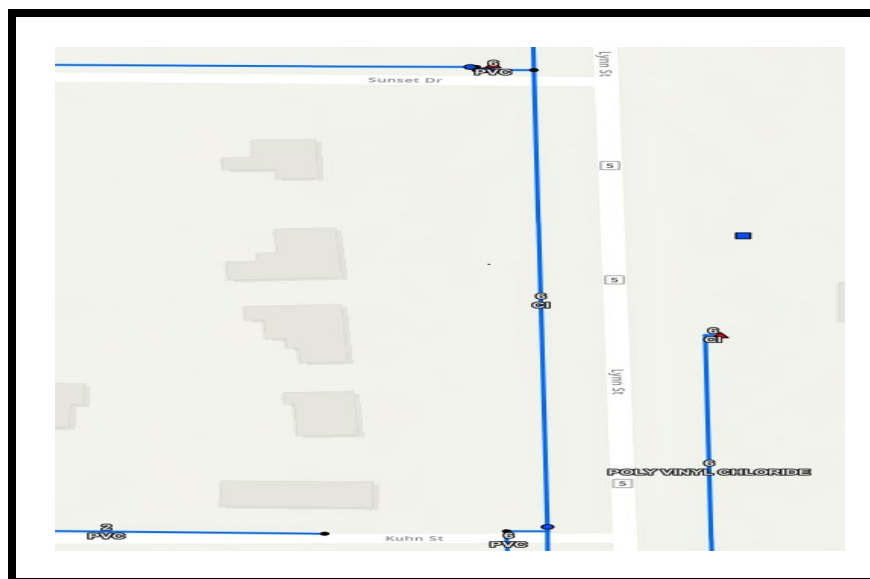

Improvement Type Land & Land Improvements

Division 87 - 200 - Water Operation

Description Replace 4 inch with 6 inch PVC water main

Justification By replacing the existing 4-inch cast iron pipe and installing a new 6-inch PVC line it will improve fire flows and the water distribution system in this area of the distribution system

Funding Source	2026	2027	2028	2029	2030	Total
Water Rates	\$0	\$60,000	\$0	\$0	\$0	\$60,000
						\$0
						\$0
Project Totals	\$0	\$60,000	\$0	\$0	\$0	\$60,000

87 - Water

Security and access control

Project Number 87-WTR-009-16

Improvement Type Building & Building Improvements

Division 87 - 200 - Water Operation

Description Security and Access control for the wells and booster stations

Justification this will enhance security and access at all seven wells and two boosters. This will also allow for remote cameras that these locations

Funding Source	2026	2027	2028	2029	2030	Total

AN ORDINANCE BY THE CITY COUNCIL OF THE CITY OF LEBANON, LACLEDE COUNTY, MISSOURI, AMENDING THE CITY *CODE OF ORDINANCES CHAPTER 2 ADMINISTRATION, ARTICLE VIII FINANCE* BY REPEALING *SECTION 2-469 FIXED ASSETS AND CAPITALIZATION POLICY* AND *APPENDIX A OF ARTICLE VIII FINANCE* IN THEIR ENTIRETY AND ENACTING A NEWLY CREATED *SECTION 2-469 CAPITAL ASSETS POLICY* AND *APPENDIX A OF ARTICLE VIII FINANCE*.

WHEREAS, that sound fiscal management for municipal government units includes the oversight of capital assets; *and*

WHEREAS, that the City wishes to at all times be able to exercise positive financial accountability for the safekeeping and responsibilities of assets; *and*

WHEREAS, that on January 28, 2013 City Council adopted a Fixed Assets and Capitalization Policy via Ordinance No. 5052; *and*

WHEREAS, the City's fixed assets policy has not been reviewed since January 2013; *and*

WHEREAS, that the Finance Department recommends updating the policy to assist the City in moving forward with GASB 34 compliancy and to improve the understandability of the policy itself; *and*

WHEREAS, that Said Code Amendment was submitted to the City Council for approval by Council Bill No. 4657 at the July 9, 2018 Council Meeting.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF LEBANON, LACLEDE COUNTY, MISSOURI, AS FOLLOWS;

SECTION 1: That the City Council of the City of Lebanon, Laclede County, Missouri, hereby amends the City *Code of Ordinances Chapter 2 Administration, Article VIII Finance* by repealing *Section 2-469 Fixed Assets and Capitalization Policy* in its entirety and enacting in lieu thereof a newly created *Section 2-469 Capital Assets Policy* to read as follows;

2-469 Capital Assets Policy

a) Purpose and Scope

- 1) The City of Lebanon invests a significant amount in capital assets in pursuit of its mission, as well as to maintain or improve the level of service expected by its citizens. These assets play an essential role in the City's ability to diversify, expand and cope with growth, and improve environmental conditions. That level of service can only be assured if adequate consideration is given to maintaining and expanding public facilities and infrastructure. If a government fails to maintain its capital assets; equipment, facilities and infrastructure will deteriorate more quickly and necessitate costly emergency allocations of financial resources.
- 2) The objective of this policy is to establish and maintain capital asset records to comply with governmental financial reporting standards, to ensure adequate control and appropriate use of capital assets, and to provide accountability for property control.
- 3) Any revisions or modifications to the capital asset policies and procedures will be made by the finance department and approved by the city administrator and/or the city council.

2-469.1 Definitions

- a) Capital Assets are real or personal property used in operations that have a value equal to or greater than the capitalization threshold for their respective asset class and have an estimated initial useful life of greater than one year. Capital assets shall include land, land improvements other than buildings, buildings and improvements, infrastructure, construction in progress, machinery and equipment, and vehicles. A capital asset is to be reported and depreciated, if applicable, in the government-wide and enterprise fund financial statements. Assets not capitalized are expended in the year of acquisition.

Basis means the amount on which depreciation computations will be based.

Buildings means permanent structures purchased or otherwise acquired by the city and improvements thereon including costs incurred in the acquisition of the building such as broker's fees and other transactional cost.

Capitalization policy means all items, which cost less than five thousand dollars (\$5,000.00), should be expensed rather than treated as a fixed asset. All fixed assets should be properly booked using acceptable account practices.

Controllable asset means a controllable asset fails the cost test of being a capital item but needs to be controlled. These assets are not capitalized on the general ledger nor are they depreciated, but they are inventoried on the fixed asset system and given a unique identifying number.

Curable condition means curable conditions can be corrected economically through major repairs or replacement.

Depreciation means in both the valuation and accounting senses implies a loss in the value of a given asset or property. There are three causes of depreciation: (a) physical deterioration, wear and tear in operation, (b) functional obsolescence, new technology, or (c) economic and/or environmental obsolescence, influences external to property itself like new regulations.

Disposal means all items sold, traded-in, scrapped, abandoned or in any way removed from service during the current fiscal reporting period are classified as disposals.

Equipment means tangible property of a more or less permanent nature, other than land, buildings, and improvements other than buildings, such as machinery, tools, furniture, computers, etc.

Exhaustible means having a limited life and does depreciate

Fair market value means the estimated amount at which the fixed asset might exchange between a willing buyer and a willing seller, neither being under compulsion, each having reasonable knowledge of all relevant facts and with equity to both.

Fixed asset means a fixed asset must have a useful life of more than one year and a minimum cost of five thousand dollars (\$5,000.00). A fixed asset would include buildings, machinery/equipment, improvements other than buildings, and land.

Fixed asset cost means fixed assets and their betterments should be recorded at historical cost. Historical cost includes not only the purchase price or cost of construction, but also any costs incurred to place the asset in its intended place and prepare it for use.

Fixed asset system means a collection of all the relevant information on all assets owned, including procedures used to report the data, the defined responsibilities of those participating in administering the system, the paperwork and forms used in reporting the additions, deletions, transfers and changes, and the various reports generated from the input of the above data.

Governmental fund type means funds used to account for the acquisition, use and balances of expendable financial resources and the related current liabilities, except those accounted

for in proprietary type and fiduciary funds. Governmental fund types include general, special revenue, debt service and capital projects.

Improvements other than buildings means permanent improvements, other than buildings, that adds value to land such as fences, retaining walls, and gutters.

Incurable condition means incurable conditions reflect a gradual loss in value over time, which isn't readily correctable without a complete property replacement.

Inexhaustible has an unlimited life and does not depreciate

Infrastructure means capital assets, which are:

- (1) Immovable; and
- (2) Have value only to a governmental unit such as, roads, sidewalks, bridges, streetlights, parking lots, water, wastewater, fiber, and electrical systems.

Land means land purchased or otherwise acquired by the city including costs incurred in preparing land for use such as razing of structures or costs related to environmental studies.

Life means the life of an asset is the period of time that an asset is expected to be in use.

Method is the specific manner in which calculations for annual depreciation is made.

Proprietary fund type means funds used to account for activities which are similar to those found in the private sector. All assets, liabilities, equities, revenues, expenses and transfers related to the city's business activities are accounted for through proprietary funds (enterprise funds and internal service funds).

Remaining life is the number of years from present to anticipated retirement date.

Total estimated life is the expected economic useful life of an asset from the date placed in service to the projected retirement date.

Salvage value is an estimate of the residual value of an asset at the end of its estimated useful life.

Straight line depreciation method means the cost of an asset less the projected salvage value is divided by the number of years of useful life of an asset to calculate the annual depreciation charge.

Transfer is any movement of an asset by virtue of a change in location, either by account, department, building, floor, or room. A transfer may be a full or complete transfer or a partial transfer of an item.

2-469.2 Valuation

- a) Capital assets should be reported at historical cost (original cost when acquired). All cost associated with the purchase or construction of a capital asset should be considered, including ancillary charges necessary to place the asset into its intended location and condition for use. Ancillary charges may include freight and transportation, site preparation, installation, professional fees, temporary and permanent easements, engineering, architect, construction management, and legal and title costs directly attribute to asset acquisition. Costs for training, maintenance agreements, and extended warranties which can be separately identified from the cost of the capital asset should not be capitalized.
- b) In the absence of historical cost information, the asset's estimated historical cost may be used to value the capital Asset. Donated capital assets should be reported at their estimated fair value at the time of acceptance plus ancillary charges, if any. Developer contributions should be reported at their estimated fair value at the time of acceptance by the City.

- c) The costs associated with general maintenance and repair that do not add value to the capital asset or materially extend the capital asset's useful life are expended in the period incurred rather than being capitalized. Significant costs, subject to the capitalization threshold for their respective asset class, which increase capacity (i.e. additional lanes on a road) or materially extend the useful life of an asset are considered a betterment and are capitalized and depreciated over the remaining useful life of the asset.

2-469.3 Asset classes

- a) The City reports the following asset classes: land, land improvements other than buildings, buildings and improvement, infrastructure, construction in progress, machinery and equipment, and vehicles.

1) Land – Land is defined as the surface or crust of the earth, which can be used to support structures and roadways. All land is to be included in this classification regardless of its value for both tracking and reporting purposes. Expenditures for land improvements that do not require maintenance or replacement, bring land into condition to commence erection of structures, not identified with structures, or that do not deteriorate with use or passage of time are additions to the cost of land and are generally not exhaustible. Land is characterized as having an unlimited life (inexhaustible) and is not depreciated. Examples of items to be capitalized as land includes purchase price or fair value at time of donation, professional fees (i.e. title searches, architect, legal, engineering, appraisal, surveying, environmental assessments, etc.), land excavation, fill, grading, and drainage, demolition of existing buildings and improvements, removal, relocation, or reconstruction of property of others (i.e. railroad, telephone and power lines etc.), and recording costs.

Easements are interests in land owned by another that entitles its holder to the right to use the land for a specific or limited purpose. An easement does not give the holder a right of "possession" of the property only a right of use. A right of way is a type of easement in which fee simple title is obtained, defined as an absolute estate in perpetuity and one in which the owner is entitled to the entire property, with unconditional power of disposition. Therefore, right-of-way acquired or donated is considered land and should be capitalized as such. However, an easement for temporary access will not be capitalized.

2) Land Improvements other than buildings – consist of permanent improvements, other than buildings, which add value to land, require maintenance or replacement, are typically identified with structures, deteriorate with use or passage of time and are generally exhaustible. Examples include parking lots, landscaping, fencing and monuments (i.e. gateway signs)

3) Buildings and improvements – A building is a structure that is permanently attached to the land, has a roof, is partially or completely enclosed by walls, and is not intended to be transportable or movable. It is generally used to house persons, property and fixtures attached to and forming a permanent part of such a structure. Examples of items to be capitalized include the purchase price or fair value at the time of donation, expenditures for remodeling, recondition, or altering a building to make it ready for use for the purpose for which it is intended, environmental compliance (i.e. asbestos abatement), professional fees (i.e. architect, legal, engineering, inspections, etc.), costs of permits and licenses, completed project costs associated with the original construction of a building, additions to building (i.e. expansion, extension, or enlargement).

Improvements to buildings, as part of a major rehabilitation project, which materially extend the useful life of a building, increase the value of a building, or both should be capitalized. Examples of items to be capitalized include installation or upgrade of heating and cooling systems, installation or upgrade of wall or ceiling coverings (i.e. carpet, tile etc.), installation or replacement of structural components (i.e. beams, rafter, joists, interior framing, etc.), installation or upgrade of windows, doors, or cabinets, installation or upgrade of plumbing or electrical wiring, installation or upgrade of phone or closed

circuit television systems, networks, fiber optical cable or wiring required for equipment that will remain in the building, installation or replacement of exterior components (i.e. siding, roofing, masonry, etc.)

Maintenance costs are incurred to keep assets in normal operating condition and to help maintain the original use of the building and are not capitalized.

4) Infrastructure – assets that are long-lived capital assets and normally stationary in nature and can be preserved for a significantly greater number of years than most capital assets. They are the basic physical structures needed for the functioning of a community or society, such as transportation and communications systems and water and power lines. These include but are not limited to roads, bridges, sanitary sewer lift stations, interceptors, sanitary sewer mains, water mains, wells and water pump stations, water treatment plant, piping and equipment, water storage tanks, and stormwater draining improvements.

Maintenance costs allow a government to continue to use an infrastructure asset during its originally established useful life and are not capitalized. Preservation costs extend the useful life of an asset beyond its original estimated useful life and should be capitalized, subject to the capitalization threshold. Additions and improvements are costs that increase the capacity of the asset (i.e. additional lanes on a road) and should be capitalized, subject to the capitalization threshold. Individual components of infrastructure that do not meet the capitalization threshold, such as street lights, sidewalks, signal improvements, paths and trails are not to be capitalized.

5) Construction in progress reflects the activity of capital assets which are substantially incomplete, such as buildings and roads. Each project must first be evaluated to determine whether it meets the capitalization threshold for the applicable asset class. Expenditures will then be added to the value of the capital asset as incurred. Projects should be reclassified to the appropriate asset class upon substantial completion.

6) Machinery and equipment is defined as any mechanical or electrical device that transmits or modifies energy to perform or assist in the performance of tasks. Equipment is defined as movable or fixed unit of furniture or furnishings, instrument, machine, or apparatus to be used for operations, the benefits of which extend beyond one year from date of acquisition. Examples of items to be capitalized as machinery and equipment include but are not limited to computers, communications equipment, office equipment, kitchen equipment, light machinery, phone system, tractors, loaders, backhoes, excavators, trailers, chippers, grinders, generators, and office furniture.

Computers will be excluded if they individually cost less than the threshold per unit of \$5,000. If the dollar amount exceeds the limit, those assets will be capitalized and depreciated. However, they will be inventoried for insurance purposes even if they are excluded for depreciation.

Computer software will not be capitalized unless it is proprietary.

7) Vehicles – will be identified, inventoried, and depreciated. When setting up the initial costs of the vehicle, lettering will be added to the cost of the vehicle. In addition, for the police and fire department, the cost of sirens, light bars etc. will be included as part of the cost of putting the car in service. In the case of moving existing sirens etc. that cost will be included as part of the initial cost associated with new purchases.

2-469.4 Capitalization Threshold and Useful Life

- a) The capitalization threshold is the dollar value the City uses to determine whether a given asset should be capitalized and reported on the balance sheet as a capital asset. The responsibility for protecting and controlling the use of capital assets rests with the department wherein the asset is located. The Finance Department shall ensure that control over capital assets is maintained by establishing a capital asset inventory that is updated annually and documents all additions and deletions to the capital asset records. Capital assets will be recorded and depreciated using the City's financial software and will include a description (including serial and model number if applicable), asset class, department name, location, date acquired, cost, and useful life. Assets that do not meet the capitalization threshold for their respective asset class on a per unit basis shall be expensed in the period incurred rather than being capitalized (see Property control).

<u>Asset Class</u>	<u>Capitalization Threshold (Dollars)</u>
Land	\$1
Land Improvements Other than Buildings	\$5,000
Building Improvements	\$5,000
Infrastructure	\$5,000
Construction in Progress	\$5,000
Machinery and Equipment	\$5,000
Vehicles	\$5,000

- b) The useful life of a capital asset is the estimate of the period over which the City expects said asset to be useful (normally the shortest of its physical, technological, or legal life). The actual life of a capital asset may extend beyond its useful life.
- c) The useful life of a fixed asset must be assigned according to Appendix A in this policy. The list is not all inclusive and is meant to serve as a guide. If an asset is not identified in the useful life listing, use the useful life of an asset as closely related to the asset as possible.

2-469.5 Depreciation

Depreciation is the measure of the decrease in the value of a capital asset over a specific period of time. If a new asset is put into service, the total estimated economic life is used for depreciation purposes. If a used asset is put into service, the remaining life will be used for depreciation purposes. Capital assets shall be depreciated over their estimated useful lives using the straight-line method beginning in the month it was acquired unless they are:

- Inexhaustible (i.e. land)
- Construction in progress

2-469.6 Additions

All capitalizable fixed assets will be approved in the budget process or by the city council before any fixed asset addition is acquired.

Purchase requisitions must be entered and approved by the appropriate city personnel in the computer system before any fixed asset is physically purchased.

2-469.7 Disposition

When a capital asset is disposed of, its cost and accumulated depreciation shall be removed from the City's capital asset records and a gain or loss be recognized, if

applicable. Disposition of an asset may be due to destruction, obsolescence, retirement, sale, trade, scrap, or donation. All capital assets must be taken to City Council for approval prior to disposition for items with a value over \$500. All City emblems must be removed from City property before disposal. The department will check grant requirements and comply before disposal on grant purchased assets.

2-469.8 Transfers

Capital assets transferred from one department to another should be reported by the department who is initiating the transfer. The asset shall be reported at its current book value as of the date of said transfer.

2-469.9 Controllable assets

The finance department will keep track of controllable assets that cost less than the capitalization level of five thousand dollars (\$5,000.00), but because of their sensitive, portable and theft-prone nature, controlling these items is important to the city. Tracking controllable assets includes adding it to the fixed asset system and tagging it with a unique tag that identifies it as a controllable asset. Any item that costs less than five thousand dollars (\$5,000.00) and more than one thousand dollars (\$1,000.00) but is more than a consumable item is a controllable asset. This could include a chair, telephone, printer, a table, etc.

Controllable assets will be expensed in the appropriate operational account number and would not be assigned to an asset class.

2-469.10 Property Control

Assets below the capitalization threshold and the controllable asset threshold but warranting control or considered sensitive may include, but are not limited to, weapons, radios, personal computers, laptop computers, printers, and small power tools. Stewardship of these minor but sensitive items is the express responsibility of the department utilizing these assets. The responsible department shall maintain control and keep an inventory list of these assets. The inventory shall include a description, location, and other information that assists in control or is deemed relevant.

2-469.11 Betterments

Major additions, including those that significantly prolong a fixed asset's economic life or expand its usefulness, should be capitalized. Normal repairs that merely maintain the asset in its present condition will be recorded as expenditures and should not be capitalized.

Life determination of assets affected in this manner becomes an average of the previous remaining life and the added life represented by the rehabilitation. The cost of the betterment is added to the book value and the total remaining undepreciated cost is allocated over the estimated remaining life.

If a component of an asset is replaced, the book value of the replaced component should be deleted from the books to prevent an overstatement of the asset's value.

2-469.12 Physical inventory

A physical inventory is designed to ensure that the fixed assets recorded in the system do physically exist; to determine whether unrecorded or improperly recorded transactions have occurred; and to identify any excess, defective, or obsolete assets on hand.

A physical inventory will be conducted by the departments each year.

Every three (3) years, the finance department will conduct a complete wall-to-wall physical inventory with the assistance of each department.

The land inventory will be listed by parcel number and/or lot, block, and tract. The use and location of the land will also be noted.

The building inventory will include a quantitative and qualitative description of each structure segregating basic building construction from heating, ventilating, air conditioning, roof, elevators, plumbing, lighting, floor and ceiling cover, and built-ins for component lifting purposes.

Land improvements other than buildings include all improvements made outside a building or any improvements made to a parcel of land.

Equipment will include a location, account, building, floor, department, description of the unit, manufacturer, model number, serial number, year acquired, the remaining life and the historical cost.

Vehicle will include a location, account, building, floor, department, description of the unit, year, make, model, vin, year acquired, the remaining life and the historical cost.

2-469.13 Tagging

A tagging system is used to maintain a positive identification of assets owned by the city. Tagging is important for facilitating the inventory process, controlling an asset's location, and for maintaining fixed assets.

Asset identification tags will be provided by the Finance Department at the time the purchase is complete. Placement of tags should be consistent among fixed assets. In general, tags will be assigned in chronological order as assets are acquired.

All rolling stock shall have City of Lebanon decals or emblems, any exceptions must be approved by the City Administrator. All vehicles shall have City of Lebanon license plates.

SECTION 2: That the City Council of the City of Lebanon, Laclede County, Missouri, hereby amends the *City Code of Ordinances Chapter 2 Administration, Article VIII Finance* by repealing *Appendix A* in its entirety and enacting in lieu thereof and newly created *Appendix A* to read as follows;

APPENDIX A. - FIXED ASSET USEFUL LIFE LISTING

FIXED ASSET TYPE	DESCRIPTION	USEFUL LIFE
LAND	Land	Not Applicable
	Land Right of Way	Not Applicable
IMPROVEMENT	Grading	20 years
	Paving	20 years
	Fencing and walls	20 years
	Curbs	20 years
	Drainage features	20 years

	Landscaping	20 years
	Lighting	20 years
	Other land improvements	20 years
BUILDING	Buildings	40 years
	Other structures and accessories	20 years
EQUIPMENT:		
COMMUNICATION	Radio and radio equipment portable	5 years
AND	Radio and radio equipment not portable	5 years
DOCUMENTATION	Television and audio visual equipment	5 years
EQUIPMENT	Telephone system and related equipment	7 years
	Teletype equipment	7 years
	Public address and intercom system	7 years
	Projection equipment	7 years
	Recording and sound equipment	5 years
	Telemetry and control	7 years
	Reference materials and books	5 years
	Data handling equipment	5 years
	Copier, printing and duplicating machinery	5 years
BUSINESS	Cash register	5 years
EQUIPMENT	Check writer/signer/protector	7 years
	Postal equipment	7 years
COMPUTER	Main frame equipment	5 years

EQUIPMENT	Computer printers	5 years
	CPUs with monitors	5 years
	Tape drive	5 years
	Distinct CPUs/disk drive	5 years
	Distinct modem	5 years
	Distinct monitors	5 years
	Plotter	5 years
	Software other than main frame software	3 years
	Main frame software	5 years
PRODUCTION	Compressor	10 years
AND REPAIR	Generator	10 years
EQUIPMENT	Conveyor	10 years
	Repair equipment specific to automotive	5 years
	Power tools	5 years
	Hand tools	5 years
HEATING AND	Air conditioning and dehumidifying	10 years
COOLING EQUIPMENT	Heaters and heating systems	10 years
FURNITURE	Small appliances (coffee dispenser)	5 years
AND	Large appliances (refrigerator, stove)	5 years
FIXTURES	Furniture/fixtures other than appliances	7 years
	Art works and exhibits	5—40 years
OTHER	Photographic equipment	5 years

DISTINCTIVE	Police lab equipment	5 years
EQUIPMENT	Survey equipment	5 years
	Lab equipment other than police lab	5 years
	Medical equipment	5 years
	Intelligence and surveillance equipment	5 years
	Radar equipment	5 years
	Weapons and restraining equipment	5 years
	Hoses and related equipment	5 years
	Specialized clothing	5 years
	Parking meters	8 years
WASTEWATER	1" to 3" water pipe	25 years
AND	4" to 48" all types water pipe	25 years
ENVIRONMENTAL	Valves—plug-gate/butterfly	35 years
EQUIPMENT	Valves—pressure reducing	10 years
	Valves—pressure relief	10 years
	Valves—check	15 years
	Valves—other	20 years
	Stand pipes	50 years
	Water tanks	50 years
	4" to 42" sewer system pipe	40 years
	4" to 12" sewer system pipe	20 years
	Outfall lines	30 years

	Pumps and motors	10 years
	Lift station—prefab material	20 years
	Lift station—power and service	10 years
	Manholes—brick and concrete	40 years
	Cleanouts	20 years
	Well	40 years
	Filtration system	10 years
	Process equipment	10 years
	Vaults	30 years
	Telemetry and control	10 years
	Tanks (underground and above ground)	15 years
	Basins/Ponds/Lagoons	15 years
	Hydrants	15 years
	Reservoirs	10 years
	Chlorination/odor control equipment	10 years
	Storm sewer pipe	40 years
	Pressure mains	10 years
	Meter pits	20 years
	8" to 24" Water system pipe	40 years
	2" to 6" Water system pipe	20 years
ELECTRIC	Structures and improvements	45 years
TRANSMISSION PLANT	Station equipment	30 years

	Towers and fixtures	50 years
	Overhead conductors and devices	50 years
	Underground conduit	50 years
	Underground conductors and device	40 years
	Roads and trails related to access	60 years
ELECTRIC	Structures and improvements	45 years
DISTRIBUTION PLANT	Station equipment	30 years
	Poles, towers and fixtures	35 years
	Overhead conductors and devices— wire-conduit pipe	50 years
	Underground conduit	50 years
	Underground conductors and device	40 years
	Line transformers and capacitors	30 years
	Services	30 years
	Meters	25 years
	Installations on customers' premises	25 years
	Street lighting and signal system	20 years
OPTICAL FIBER	Structures and improvements	25 Years
DISTRIBUTION PLANT	Poles lines, cable, aerial wire, underground conduits	25 Years
MOBILE	Forklift and accessories	10 years
EQUIPMENT	Grader	10 years
	Sanitation and semi-trucks	5 years
	Street marking equipment	5 years

	Mowers, seeders, weed/grass equipment	3 years
	Snowplows and snow removal equipment	10 years
	Spreaders	5 years
	Trailer mounted compressor	10 years
	Backhoe	10 years
	Sewer rodder	10 years
	Portable pumps	5 years
	Trailer mounted sewer machine	5 years
	Loader	10 years
	Asphalt pavers	10 years
	Street sweepers and cleaners	7 years
	Asphalt kettle	10 years
	Tractors and accessories	7 years
	Trailers	10 years
	Trenchers	5 years
	Mixers	5 years
	Motorcycles and scooters	5 years
	Police vehicles	3 years
	Fire trucks and accessories	15 years
	Light general purpose trucks, autos, and accessories	7 years
	Heavy general purpose trucks	10 years
	Ambulances and medical vehicles	7 years

	Other mobile equipment	5—15 years
	Chippers	5 years
	CCTV	7 years
RECREATION	Bleachers, benches, scoreboards	7 years
EQUIPMENT	Specific sports equipment	3 years
	Park equipment (swings, slides)	7 years
	Ball field lights	15 years
	Ball field fencing	15 years

SECTION 3: If any provision of this policy is declared unconstitutional, or the application thereof to any person or circumstance is held invalid, the constitutionality of the remainder of the policy and the applicability thereof to other persons and circumstances shall not be affected

SECTION 4: That this Ordinance shall be in full force and effect from and after the date of its passage and approval.

Passed and approved by the City Council of the City of Lebanon, Laclede County, Missouri, on this 23rd day of July, 2018.

(Seal)

Attest:

Laina Starnes
City Clerk Laina Starnes

Mayor Jared Carr

1st Reading: July 9, 2018
2nd Reading: July 23, 2018
