CITY OF LEBANON, MISSOURI • INCORPORATED 1877

### Code Administration Reminder To The Public

LEBANON, MO: The Code Administration Department would like to remind the public that as of January 2, 2018, every contractor and sub-contractors are required to register with the City. This includes all building trades, home inspectors, tree trimmers, lawn care etc. The registration fee is \$25.00 and will be valid through the end of the year. Contractors will need to be registered prior to starting any projects. Additionally, all building projects are required to have a building permit and are subject to inspections by the city.

Information can be found on the city website at [www.lebanonmissouri.org](http://www.lebanonmissouri.org) under the Code Administration link or by visiting the Public Works building at 1401 West Commercial. Contractors and residents with questions about contractor registration and building permits should contact Code Administrator Joe Berkich at 417-991-3905 or [jberkich@lebanonmo.org](mailto:jberkich@lebanonmo.org)

Spring is coming and with the warm weather the grass will start growing again. The Code Administration Department would like to remind everyone that the maximum height allowed for grass is 12" per city ordinance. We would also like to remind everyone that your trash must be kept under control and in an approved container until it is picked up by the trash collectors. Any indoor furniture and/or appliances will not be allowed to be left outdoors. If you have any questions concerning these issues, please visit the Public Works building or contact the Inspector Andrew Garton 417-991-3916 [agarton@lebanonmo.org](mailto:agarton@lebanonmo.org) or the Compliance Officer Christina Wagner 417-991-3912 [cwagner@lebanonmo.org](mailto:cwagner@lebanonmo.org).
